

INSTALLATION GUIDE

MODELS COVERED:

Wall Hung Mirrors

Please keep this booklet for future reference.

Installer:

When you have read these instructions, please ensure you leave them with the user.

INTRODUCTION

Thank you for buying one of our Products. You can be confident that it not only features a beautiful, distinctive, classic design, but that it has also been made to the very highest quality standards.

To ensure that it works to its full potential, it needs to be fitted correctly.

These fitting instructions have been created to give you all of the information you need and, if you need any further help, please do not hesitate to contact the store the mirror was purchased from.

SAFETY NOTES

Please read these instructions and retain for future use.

All products manufactured and supplied by Britannia Mirrors are safe, provided they are installed correctly, used correctly, and receive regular maintenance in accordance with these instructions.

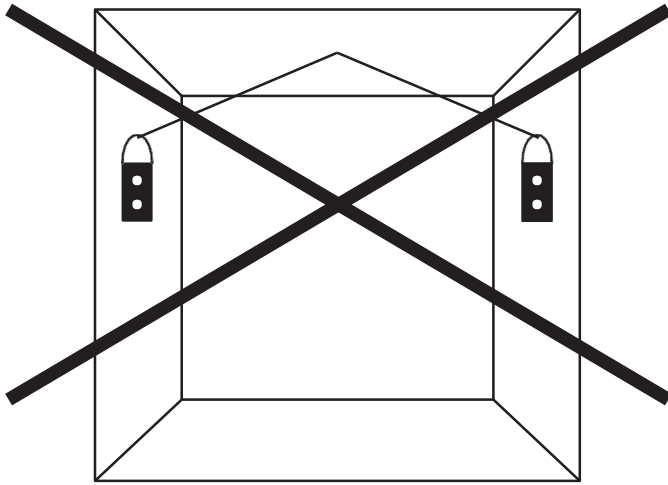

If you are in any doubt about your ability to install this product safely you must employ the services of a competent person who has experience of fitting products of this nature.

Before starting any installation project please consider the following:

- Prior to drilling into walls, check there are no hidden electrical wires or cables or water supply pipes with the aid of an electrical detector.
- If you use power tools do not forget PPE:
 - Wear eye protection.
 - Unplug equipment after use.
- Keep electrical equipment away from sources of water.
- This product must not be modified in any way as this will invalidate the guarantee.

INSTALLATION

⚠ Do not hang mirror by picture wire, chain or cord.

Hang by the two strap hangers directly onto adequate hooks (not supplied), securely fixed to the wall.

Assistance may be required depending on the weight and size of the mirror

INSTALLATION

1. Position the mirror in the desired location on the wall and using a pencil, lightly mark each outside edge of the frame with a pencil.

NOTE: Be sure to check that the mirror is level with the use of a spirit level.

2. On the reverse of the mirror, measure the distance between the top edge and the connecting part of the strap, (See diagram overleaf), which will be used to hang the mirror to the hooks.

3. Mark this distance on the wall, with a straight line using a spirit level, then mark the distance between each of the 2 straps with 2 crosses on the level line, as indicated in the diagram below:

4. Drill the appropriate sized hole for your wall plug and screw and fit your hooks accordingly.
5. Using a rubber, lightly erase all pencil markings on the wall.
6. Hook the hanging straps onto the fitted hooks and ensure once again that your mirror is straight.

CARING FOR YOUR PRODUCT

Your fitting has a high-quality finish and should be treated with care to preserve the surface.

- All surface finishes will wear if not cleaned correctly.
- The only safe way to clean your product is to wipe the mirror surface with a soft damp cloth.
- Do not use abrasive materials to clean/wipe surfaces.
- Do not use cleaning powders or liquids.
- Even non-scratch cleaners may damage the surface of your fitting.
- Do not use any form of cleaning products on the mirror surround. Certain mirror surrounds are hand painted with a delicate silver leaf finish and so we would recommend using nothing more than a fine duster.

BRITANNIA MIRRORS

We love to see how our products are used so please
keep in touch and share pictures of your new
mirrors with us.
